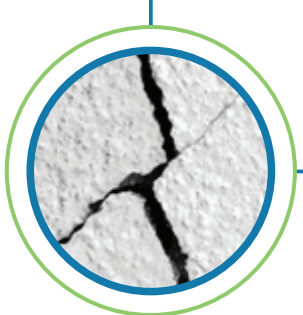
REPORTING BUILDING SAFETY RISKS

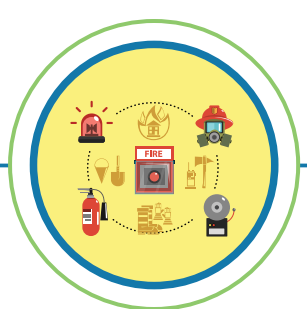
We use a system called Mandatory Occurrence Reporting (MOR) to tell the Building Safety Regulator (BSR) about any serious safety risk in the building.

WHAT TO LOOK OUT FOR



Cracks, falling pieces, or other serious damage to walls, floors, or ceilings

Fire or thick smoke spreading inside the building



Important fire-safety equipment not working (sprinklers, smoke detectors, fire doors, smoke vents)

Anything else that, if not fixed, could badly hurt many people

WHAT YOU SHOULD DO

1 Call **999** if anyone is in danger.

2 **Tell the council straight away.**
Phone: **020 7525 5000**

Scan the QR code to use the online form:

THANK YOU FOR HELPING TO KEEP EVERYONE SAFE
